

Federal Government Libraries select Relais ILL and Relais Access

For immediate release

June 6, 2006

Relais International is pleased to announce that several Federal Government Libraries in the Ottawa area have recently selected the Relais ILL system. The libraries include: Supreme Court of Canada, Statistics Canada, Public Service Commission, and Public Works and Government Services Canada.

Relais International will host the service for each library from their Head Quarters in Ottawa. The systems will include Relais Access, web-based pages, to allow patrons to request items from the Library as well as to inquire about the status of their requests.

The libraries are each using the SirsiDynix Unicorn integrated library system, and will use NCIP to share patron information between the Unicorn system and the Relais ILL system.

Relais™ International Inc is based in Ottawa, Canada and has been selling systems to support interlibrary loan and document delivery services since 1996. Relais International (www.relais-intl.com) assists libraries in implementing intelligent and automated methods to support the delivery of documents. Relais products range from scanning stations through to fully integrated request management, scanning and delivery software suitable for a single library through to a consortium.
