
For Immediate Release

March 31, 2008

Relais International is pleased to announce that the Amelia V. Gallucci-Cirio Library of Fitchburg State College in Fitchburg, Massachusetts has selected Relais Express PLUS. The software is designed for easy scanning and delivery of documents to patrons and to other libraries. Library staff can convert paper documents to electronic format by scanning, or they can use existing electronic documents anywhere on their network for desktop delivery to their patrons. Delivery can be done via FTP to Ariel, Odyssey, Post to Web, Email attachment, or fax. Express PLUS is specifically designed for use on multiple workstations on a network.

The library took advantage of their NELINET membership which provides a discount on Relais products.

Relais™ International Inc is based in Ottawa, Canada and has been selling systems to support interlibrary loan and document delivery services since 1996. Relais International (www.relais-intl.com) assists libraries in implementing intelligent and automated methods to support the delivery of documents. Relais products range from scanning stations through to fully integrated request management, scanning and delivery software suitable for a single library through to a consortium.
