## For Immediate Release July 5, 2007

Lakeland College Library located in Lloydminster, Alberta, has selected the Relais ILL Hosted Service to automate their ILL and Document Delivery operations. The system will include the Relais Access web-based pages which includes the Relais Web Services software. Relais Access will interface with the library's SFX software, an OpenURL link resolver from Ex Libris. Lakeland College uses the Unicorn ILS from SirsiDynix, a technology partner of Relais International.

Clare MacKeigan, Chief Operating Officer for Relais International, says "We are delighted that Lakeland College has selected Relais International as their ILL and Document Delivery System vendor. We are looking forward to forming a long lasting relationship with their staff and helping them provide leading information solutions to their patrons". Relais International will host the system from our offices in Ottawa, Canada. The Relais ILL systems will be implemented by the fall of 2007.

**Relais™ International Inc** is based in Ottawa, Canada and has been selling systems to support interlibrary loan and document delivery services since 1996. Relais International ([www.relais-intl.com](http://www.relais-intl.com)) assists libraries in implementing intelligent and automated methods to support the delivery of documents. Relais products range from scanning stations through to fully integrated request management, scanning and delivery software suitable for a single library through to a consortium.
