

Lawrence Livermore National Laboratory chooses Relais ILL & Access

For immediate release

June 25, 2006

Lawrence Livermore National Laboratory located in Livermore, California, has selected Relais ILL to automate their ILL and Document Delivery operations.

This system will include Relais Access, web-based pages, to allow patrons to request items from the Library as well as to inquire about the status of their requests.

Clare MacKeigan, General Manager of Relais International, says “We are delighted that the Lawrence Livermore National Laboratory has selected Relais International as their ILL and Document Delivery System vendor”.

The system will be hosted by Lawrence Livermore National Laboratory (LLNL) on a server running an Oracle database. The Relais system will be implemented during the summer 2006.

Relais™ International Inc is based in Ottawa, Canada and has been selling systems to support interlibrary loan and document delivery services since 1996. Relais International (www.relais-intl.com) assists libraries in implementing intelligent and automated methods to support the delivery of documents. Relais products range from scanning stations through to fully integrated request management, scanning and delivery software suitable for a single library through to a consortium.
