

Lethbridge Community College selects Relais ILL & Access

For immediate release

August 9, 2006

Lethbridge Community College located in Lethbridge, Alberta, has selected the hosted Relais ILL service to automate their ILL and Document Delivery operations.

This system will include Relais Access, web-based pages, to allow patrons to request items from the Library as well as to inquire about the status of their requests.

Clare MacKeigan, General Manager of Relais International, says "We are very happy that the Lethbridge Community College has selected Relais International as their ILL and Document Delivery System vendor. We are looking forward to having a strong working relationship with another library in Alberta".

The system will be hosted by Relais International from our offices in Ottawa, Canada. The Lethbridge training is scheduled for August and the system will be implemented by September 2006 and will interface with the library's Voyager Integrated Library System.

Relais™ International Inc is based in Ottawa, Canada and has been selling systems to support interlibrary loan and document delivery services since 1996. Relais International (www.relais-intl.com) assists libraries in implementing intelligent and automated methods to support the delivery of documents. Relais products range from scanning stations through to fully integrated request management, scanning and delivery software suitable for a single library through to a consortium.
