

## **Medicine Hat College selects Relais ILL & Access**

**For immediate release**

**January 15, 2007**

Medicine Hat College located in Medicine Hat, Alberta, has selected the hosted Relais ILL service to automate their ILL and Document Delivery operations.

This system will include Relais Access, web-based pages, to allow patrons to request items from the Library as well as to inquire about the status of their requests.

Clare MacKeigan, General Manager of Relais International, says “We are very happy that the Medicine Hat College has selected Relais International as their ILL and Document Delivery System vendor. We are looking forward to having a strong working relationship with another library in Alberta”.

The system will be hosted by Relais International from our offices in Ottawa, Canada. The system is scheduled to be implemented by the spring 2007 and will interface with the library’s Millennium Integrated Library System which the library shares with another Relais International customer, the University of Lethbridge.

**Relais™ International Inc** is based in Ottawa, Canada and has been selling systems to support interlibrary loan and document delivery services since 1996. Relais International ([www.relais-intl.com](http://www.relais-intl.com)) assists libraries in implementing intelligent and automated methods to support the delivery of documents. Relais products range from scanning stations through to fully integrated request management, scanning and delivery software suitable for a single library through to a consortium.
