Intelligent, Flexible, Open Solutions

FOR IMMEDIATE RELEASE
July 14, 2011

Relais International and LYRASIS strengthen partnership

Relais International is pleased to announce it has signed a reseller and co-marketing agreement with LYRASIS that provides LYRASIS members discounts on our resource sharing solutions.

Through its range of products, Relais International provides highly sophisticated systems and software to automate and streamline operations in traditional ILL and document delivery services, as well as services supporting consortial resource sharing, campus delivery and distance education programs. Products now available to members across all LYRASIS regions include Relais Express, Relais ILL, and Relais D2D, our consortial resource sharing solution.

In addition, LYRASIS offers enhanced discovery services that integrate with Relais International's ILL and document delivery management system.

Relais™ International Inc is based in Ottawa, Canada and has been selling systems to support resource sharing, interlibrary loan and document delivery services since 1996. Relais International (www.relais-intl.com) assists libraries in implementing intelligent and automated methods to support requesting through to delivery of documents. Relais products range from scanning stations through to fully integrated request management, scanning and delivery software suitable for a single library through to a consortium.
