

Collège universitaire de Saint-Boniface selects Relais Enterprise

For immediate release

May 25, 2006

The College universitaire de Saint-Boniface in Winnipeg, Manitoba has selected Relais Enterprise to automate their ILL and Document Delivery operations.

The Alfred-Monnin Library of the College has also purchase a Relais Scanning Station that interfaces with the Relais Enterprise system to scan and deliver items to their patrons electronically.

Although the College is an independent institution, about 80% of its student population is registered at the University of Manitoba which also uses the Relais Enterprise system. The two institutions also share a Sirsi Unicorn integrated library system.

The College's Relais Enterprise system was implemented in the spring of 2006.

Relais™ International Inc is based in Ottawa, Canada and has been selling systems to support interlibrary loan and document delivery services since 1996. Relais International (www.relais-intl.com) assists libraries in implementing intelligent and automated methods to support the delivery of documents. Relais products range from scanning stations through to fully integrated request management, scanning and delivery software suitable for a single library through to a consortium.
